Four-zone/eight-room A-BUS® expansion hub

Highlights

- Simple connection to any A-BUS-equipped Harman Kardon product
- Distributes up to four line-level audio sources to separate zones, with two rooms per zone
- Connects to AB 2 or AB 1 amplified in-wall modules or compatible A-BUS products
- Audio pass-through allows sources to be used for both AVR and multiroom use
- Expandable to additional rooms with the ABH 4

Different music in different rooms. With an ABH 4000 hub, up to four different input sources and your Harman Kardon® AVR, you can easily divide your house into four separate entertainment zones, in which local customs and individual musical tastes may prevail. Link in an A-BUS®-equipped remote AVR and make its tuner and The Bridge docking station accessible from throughout the realm. May domestic bliss and your favorite music be with you.
